Senior Software Engineer

[LinkedIn](#) • Lahore, Pakistan, 54000

Senior Software Engineer with **7+ years of experience** building scalable, distributed systems and cloud-native applications.

Strong expertise in backend development, microservices architecture, RESTful API design, and event-driven systems, with hands-on experience in high-throughput data pipelines.

Demonstrated ability to improve system reliability, optimize performance, and deliver secure, production-ready solutions in fast-paced, remote environments.

Core Expertise

- Software Development
- Agile & Scrum Process Management
- Infrastructure Design & Implementation
- AI Integration & Automation
- System Acquisition
- Sensitive Data Protection
- Enterprise Development Leadership
- Cloud-Native Development
- Automated Testing
- Project Management
- Software Architecture
- RESTful API Designing & Development

Technical Proficiencies

Software	React.js, Node.js, Material UI, Chakra UI, Tailwind CSS, Bootstrap
Tools	Redux, React Query, jQuery, Postman, Stripe, Twilio, Clerk, Slack, Notion, Jira, Trello
Languages	JavaScript, TypeScript, Python, HTML5
Framework	Express.js, NestJS, Fastify, Next.js, Django, Flask, FastAPI, DRF
Database	MongoDB, PostgreSQL, MySQL, DynamoDB
Platform/Cloud	AWS (Lambda, SQS, ECS), Microsoft Azure, Google Cloud Platform, DigitalOcean
DevOps & Pipeline	CI/CD Pipelines, Logstash, Docker
AI & Machine Learning	OpenAI API, GPT Integrations, AI Automation Workflows, OCR Processing, Data Extraction, Pandas
Collaboration	Slack, Notion, Jira, Trello, Git (GitHub/GitLab), Agile/Scrum workflows, Async communication

Career Experience

Freelancer, Dubai, UAE | Remote
Senior Software Engineer

February 2025 – Present

- Architected and deployed scalable backend systems using Node.js, supporting high-traffic applications with improved system reliability
- Designed microservices and event-driven architectures using AWS (Lambda, SQS, ECS, DynamoDB)
- Optimized PostgreSQL and MongoDB queries, improving database performance and reducing response times
- Built RESTful APIs and integrated them with React.js frontends to enhance user experience and system efficiency
- Implemented CI/CD pipelines, reducing deployment time and improving release consistency
- Integrated AI-driven workflows and automation systems to enhance product capabilities

Cooperative Computing, Karachi, PK | Remote
Lead Software Engineer

March 2023 – January 2025

- Led development of scalable web applications using Node.js and React.js, improving system performance and user experience
- Engineered API integration frameworks and automated testing pipelines to ensure system reliability
- Improved system scalability and reduced performance bottlenecks through debugging and optimization strategies
- Collaborated with cross-functional teams to design and deliver enterprise-grade solutions

AI Works, Lahore, PK | On-Site
Full Stack Developer

February 2022 – March 2023

- Developed backend services using Django, Flask, and FastAPI for high-performance applications
- Designed ETL pipelines and data processing systems, improving data integration efficiency
- Implemented real-time data streaming solutions using Apache Kafka
- Integrated Redis and Elasticsearch to improve system performance and search capabilities
- Built authentication systems using AWS Cognito

Orange Shine, Los Angeles County, CA | Remote
Full Stack Developer

July 2021 – January 2022

- Increased user engagement by 20% through improved frontend performance using React.js and Next.js
- Designed and optimized database schemas, reducing query response times
- Collaborated with product and design teams to deliver scalable applications

Glownerx, Lahore, Pakistan
Senior Software Developer

November 2019 – June 2021

- Developed responsive and high-performance user interfaces using modern frontend frameworks
- Reduced application latency through optimized backend logic and scalable architecture

Education

Bachelor of Science in Computer Science, University of Central Punjab, Lahore, Pakistan, 2020

Professional Development

Analysis and Algorithm | Compiler and Construction | Machine Learning | Operating System | Web Development | Django

Licenses & Certificates

NodeJs Certification | Python Certification | Problem-solving Certificate
